Subject: Roofco

Our organization recently had the production facility's roof replaced by Roofco in the late summer of 2021. The project was completed with the upmost care and professionalism. Roofco's staff updated our facility's roof to a TPO style roof in an efficient, clean, and safe manner resulting zero interruption to our manufacturing process while adhering to our organization's internal policies and procedures during the COVID-19 pandemic. As a business who values the importance of providing superior quality, service, value, and innovation to our customers, we expect the same characteristics in our vendors, and Roofco did not disappoint.

This project was completed on time, and on budget resulting in a top-of-the-line roofing system. Roofco resolved our roofing concerns, and our organization would not hesitate in using Roofco for any future projects.

If you have any further questions, please feel free to contact me at your convenience.

Thank you.

Regards,

Gerald Hickey
President
